

I am extremely concerned about the results of changing the current ownership laws. Because I am fortunate enough to live near the Canadian border, I have been able to monitor Canadian television broadcasts and can see first hand what a lack of diversity is occurring in US media coverage. As an American I want to preserve my right to see and hear the many sides of any issue so that I may make an intelligent, informed decision about the direction my country is taking. Changing the law would almost certainly make it possible to eliminate this diversity.
